Leadership and Collaboration Skills: I work to motivate teams toward common goals and make informed decisions. I make a concerted effort to adapt to new technologies. Throughout my career, I have learned to handle pressure and make quick decisions when is necessary. My focus is on understanding the needs of my team and clients, always striving to strengthen relationships and foster innovation, working collaboratively with teams in Marketing, UX and CX, Product, Development teams, Scrum Cells, etc.

EXPERIENCE

• ***Digital Professional - Martech Analyst [Senior]*** *(Latam Airlines). March 2025 / Present.*

I lead the implementation and optimization of scalable measurement frameworks for global digital campaigns, unifying web and app analytics through Google Tag Manager (Web, App, Server-Side) and Mobile Measurement Partners. I design robust data infrastructures grounded in strong governance and quality standards, enabling accurate omnichannel attribution and powering LATAM's predictive analytics and machine learning initiatives.

My work supports multi-country media strategies across platforms such as Google Ads, Meta, Microsoft Ads, TikTok, Amazon, DV360, and more. I manage technology and analytics roadmaps focused on automation, API integrations, and cloud-based pipelines using Google Cloud, Salesforce, Pub/Sub, Dataflow, and BigQuery.

I translate complex technical data into clear, actionable insights for business stakeholders, lead cross-functional initiatives, and strengthen acquisition and retention strategies. Recognized as a MarTech expert, I consistently drive innovation, evaluate emerging technologies, and ensure consistency in data structures across the marketing ecosystem.

• ***Manager of Digital Performance / CRO / Metrics*** *(BNP Paribas Cardif). June 2022 / Jan 2025*

Paid Media: Plan, implement, and optimize paid advertising strategies across digital channels. Utilize DMP and CDP/**Salesforce Marketing Cloud** platforms to create personalized and targeted campaigns, maximizing customer data to build accurate audiences and optimize advertising investments.
CRO: Set up and maintain tags, triggers, and variables in **GTM**. Conduct testing and debugging. Configure and personalize events in **GA4**. Analyze and visualize data (configuring metrics, dimensions, events, and conversions). Integrate digital tools with **DMP** and **CDP**

platforms to gain a complete, consistent view of marketing activities and results across channels while ensuring compliance with privacy and data protection regulations. Perform data extraction, transformation, and loading to DMP/CDP tools.
Design, develop, maintain, and update data visualization dashboards. Correctly configure customizations, experiments, or A/B tests.
Propose, design, and develop front-end (**HTML, CSS, and Javascript**) variants or **A/B tests** that provide an enhanced user experience.
Collect and interpret A/B test results data. Manage implementation in production environments. (Work with multidisciplinary teams: Marketing, UX, CX, Product, Scrum teams, Channels, Development, IT, etc.)
 I led a team of four, two Paid Media Managers and two CRO Managers.

Achievements and Success Stories: (All titles below are links to my project website)

★ Driving Success: Crafting and Executing a Digital Media Strategy
★ Enhancing Website Performance by Implementing a New Payment Method.
★ Driving Rapid Growth Through Experimentation and A/B Testing.
★ Website Revamp for New Campaign Using AB Testing / Personalization Tools / Google Tag Manager
★ Educating Stakeholders on Data Visualization Panels and Their Benefits

• ***Manager of Digital Marketing & E-commerce*** *(Commerce Rocks). December 2020 / June 2022*

Responsible for leading the strategies:
SEO On-Page Development of a website optimized for Google algorithms; content and page structure optimization: Titles, meta descriptions, keywords, internal links, content quality, user experience.
SEO Off-Page (Linkbuilding, Social Media Management, Blogging).
SEM (PPC) Development and management of campaigns through Google Search; Display, Video, and Shopping. Optimization of keywords, titles, descriptions, ads, and extensions in dynamic and standard campaigns.
Social Media Management Design and implementation of content strategy on social media platforms, monitoring audience interaction and identifying trends to ensure successful execution of Facebook and Instagram (or Meta Business Suite) paid campaigns with different formats (reels, videos, images, carousels).
Email Marketing Automation In **Salesforce Marketing Cloud,** design of email campaigns to inform customers about new products, discounts, and promotions. Additionally, educating the audience about the brand's values to keep them engaged.
Blogging Supervision of blog article development to provide relevant information and establish the brand as an authority, ultimately leading to sales.
PR Management of commercial partnerships with high-authority websites to strengthen link profiles (Linkbuilding), as well as expanding reach to new audiences cost-effectively.
 I led a team of six people, 1 Journalist - 2 Media professional - 1 Front-End Developer - 1 Paid Media Manager - 1 Data Analytics.

Achievements and Success Stories: (All titles below are links to my project website)

★ SEO: Positioning a Website on Google's First Page
★ SEM: Driving Conversions and Maximizing Return on Ad Spend (Principal canal de ventas).
★ Social Media Project: Data-Driven Social
★ From Zero to Hero: The Evolution of Email Marketing in Commerce Rocks
★ Transforming the Purchase Journey: Reducing Cart Abandonment and Increasing Average Order Value

• ***Partner Manager, Google Marketing Platforms*** *(Google). January 2020 / December 2020*

Development of projects with partners that will implement and integrate Google Marketing Platform solutions, focusing on use cases that generate value for the client's business objectives.
Build and foster a deep understanding of the Google Marketing Platform suite of solutions, providing intellectual guidance for client and partner ecosystems, guiding them in their technological maturity journey to achieve digital business objectives.
Establish and develop partnerships to manage client advertising on Google Marketing Platform through enhanced data, measurement, and audience insights.
Build and lead strategic business planning with partners.
Define joint business strategies, objectives, and execution tactics for partner markets.
Develop and maintain relationships with partners to become their trusted MarTech advisor.

Achievements and Success Stories: (All titles below are links to my project website)

★ Implementation of Google Tag Manager and Google Optimize to Improve User Experience
★ Leveraging GA4 for Advanced User Segmentation

★ Programmatic Advertising Management with Display & Video 360
★ Building a Unified Customer View in **Salesforce Marketing Cloud**
★ Real-Time Attribution: Google Marketing Platform Meets Salesforce
★ Cross-Domain Tracking Anomalies
★ Ensuring Accurate Data Collection by Correcting GTM and Data Layer Implementation

• ***Digital Marketing Manager*** *(Milano's Pizza). July 2017 / November 2019*

Designed Marketing Plan and Sales Process Model, overseeing multidisciplinary teams (sales, digital agency and advertising, marketing and web team, call center, and promoters). Generated reports and conducted sales and marketing activities analysis.

• ***SEO Manager / Social Media / Digital Analytics*** *(Milano's Pizza)*

Responsible for keyword research and optimization, including **On-Page SEO** (content, titles, metadata, internal links, images), **Off-Page SEO** (Link Building, Content, Social Media), and ***Technical SEO*** (site speed, data structure, XML Sitemap). Gathered statistical data and relevant performance metrics. Developed insightful reports for decision-making.
I led a team of four, 1 Media professional - 1 Front-End Developer - 1 Paid Media Manager - 1 Data Analytics.
